

Scientific Scholar Award Overview:

The Marsha Rivkin Center for Ovarian Cancer Research is announcing funds for approximately three Scientific Scholar awards to be allocated based on scientific merit. One-year grants at \$60,000 each, Scientific Scholar Awards are intended to assist promising laboratory and clinical scientists in pursuing a career as an independent investigator in ovarian cancer research. *Funds are for direct costs only; institutional overhead and indirect costs will not be included in the award.*

Applicants may budget salary support (up to 50% of the awarded amount), materials, supplies, consumables, travel costs for scientific meetings, and other expenses as justified. Budget and budget justification must be included with the application.

Eligibility:

Potential candidates will have an MD, PhD, or equivalent degree with career goals focused on ovarian cancer. Clinicians will have completed their residency. Candidates should be at the post-doc/fellow, instructor, research assistant, or assistant professor level with no more than 3-4 years in any of these positions. Established, outstanding scientists without prior focus in ovarian cancer but looking to focus in this disease area are also encouraged to apply.

Requirements upon funding:

A final scientific report, final financial report, and lay abstract must be provided within 90 days after the completion of the funding period. In addition to all final reports and annual updates, award recipients will be required to present at the next forthcoming Rivkin Center Symposium following the completion of funding. The Rivkin Center will provide travel in addition to Scientific Scholar Award funding unless travel funds remain as part of the award.

Award recipients are encouraged to use results to publish findings and develop full-scale funding applications to national agencies.

Application Format and Instructions:

Applicants should submit a proposal to the Rivkin Center including a cover letter, mentor's statement(s), career development plan, scientific proposal, and a 100-word lay abstract.

The scientific proposal should be submitted using forms from our website (Arial or other acceptable font, 11 point minimum, 8.5" x 11" paper, 0.5" margins). Required forms include Face Page, Table of Contents, Detailed Budget, Entire Budget with Budget Justification, Biosketch (2-page), Other Support, and Continuation pages for the scientific plan and lay abstract. The scientific plan should be no more than five pages in length addressing each of the following areas: Specific Aims, Background and Significance, Preliminary Results (if available), and Research Design and Methods. All tables, figures, and images must fit within the five-page limit. References, human subjects, and vertebrate animals should be included as necessary and are not included in the five-page limit. Additional materials (e.g. published papers) will not be considered.

Cover Letter:

A cover letter must accompany the application and should contain the following information:

- Name of candidate, current title, and institution
- Prior training/experience in ovarian cancer
- Short- and long- term research and career goals
- Name(s) of mentor(s)

Mentor's Statement(s):

Please include a letter(s) of support from the selected mentor(s) including information on his/her relevant experience, his/her commitment to the applicant's research plan, and nature of the supervision that will occur during the award period.

Career Development Plan:

The career development plan is closely evaluated and strongly weighed in the review process. The career development plan must be specifically tailored to the applicant's needs and with the ultimate goal of

Since its inception in 1996, the Marsha Rivkin Center for Ovarian Cancer Research has been instrumental in supporting and organizing the research community to find solutions to ovarian cancer. Founded by renowned oncologist Dr. Saul Rivkin and his five daughters in memory of his wife who passed away after a long battle with ovarian cancer, the Marsha Rivkin Center works closely with its distinguished partners: Swedish Medical Center, the region's most extensive cancer treatment facility which has been treating cancer patients for more than 80 years; and Fred Hutchinson Cancer Research Center, internationally recognized for its pioneering research. For more information, please visit www.rivkin.org.

achieving independence as a researcher. Describe how the award will contribute to the applicant's ability to fulfill both short-term and long-term goals.

A systematic plan should be presented for obtaining the necessary research experiences to launch an independent ovarian cancer research career. The plan must detail additional training and/or classes needed to meet goals.

The plan should identify 1-2 mentors and include a justification for one year of mentored research experience. Describe each mentor's areas of expertise and responsibilities as well as the rationale for the applicant's choice of mentors. A convincing case must be presented to demonstrate that the support of the mentor(s) will substantially enhance the applicant's career and/or will allow the pursuit of a novel or promising study with research objectives.

Application Submission:

One hard document with original signatures, three hard copies, and one electronic copy (Adobe PDF) must be received by **December 1, 2011**. The electronic copy may be sent separately via email.
